01 — CUMULATIVE DEAL EXPOSURE

Institutional residential sourcing, not vanity metrics.

≈
€500 M

CUMULATIVE INSTITUTIONAL SOURCING & VALUATION PIPELINE CONTEXT

THE PRECISE CLAIM

Residential sourcing and underwriting exposure across Germany and the United Kingdom.

Participation in a cumulative institutional sourcing and valuation pipeline — not personal principal volume. The work involved origination, market access, deal screening, evaluation support and negotiation.

SELECTED TRAJECTORY

Three chapters. One founder convergence.

From residential deals and market access to employer partnerships, housing operations and a new operating model for workforce housing.

2026—

Founder & Managing Director

AMAVIO HOLDING UG · DÜSSELDORF

Building a technology-enabled workforce-housing platform at the intersection of property execution, international talent arrival and operational integration.

PROOF **Business model, product architecture, go-to-market and partner system designed as one operating model.**

2023—2026

Commercial Leadership · Clinics & Housing

TERN GROUP / TERN DEUTSCHLAND · GERMANY

Co-built the German business; most recently Senior Director Sales & Head of Client Partnerships — Clinics, alongside property-management responsibility.

PROOF **10+ healthcare partnerships won; ≈25 homes sourced and coordinated for international professionals.**

2022—2024

Associate Sourcing Manager

INSTA IMMO · HAMBURG / MANCHESTER

Institutional residential sourcing, underwriting support and market-entry work across Germany and the United Kingdom.

PROOF **Manchester access through partner work, origination and structured on-the-ground checks.**

02 — SELECTED BUILDS

Proof lives in the systems left behind.

Three examples of market creation, commercial infrastructure and product experimentation — each tied to a concrete operating problem.

01

CROSS-BORDER ORIGINATION

Manchester Residential Market Entry

CONTEXT A credible entry point was needed for institutional residential sourcing in Manchester.

BUILT Built local partner access, an origination rhythm and structured checks on the ground.

RESULT **A repeatable DE/UK sourcing bridge with practical market-access mechanics.**

02

COMMERCIAL OPERATING SYSTEM

Healthcare Commercial × Housing

CONTEXT Healthcare employers required a reliable transition from signed partnership to arrival and housing execution.

BUILT Built partnership routines, sales structures and handoffs across client teams, immigration, operations and housing.

RESULT **10+ healthcare partnerships and ≈25 homes sourced / coordinated for international professionals.**

03

AI-ENABLED PRODUCT EXPERIMENT

TernMed Assistant

CONTEXT An arrival problem for international healthcare professionals called for a simpler digital support layer.

BUILT Initiated a low-code AI prototype around user needs and operational workflow thinking.

RESULT **2nd place in TernXperiment 2026, an internal innovation competition.**

FOUNDER THESIS

Workforce housing scales when property execution, employer demand, integration and digital operations are designed as one system.
